## A Time to Speak Up for our Values

This year, Republicans control both houses of Congress. They are sharpening their knives to cut vital programs the country needs. At the same time, both Congress and the President are calling for increasing the Pentagon budget, going to war and spending billions to upgrade our vast nuclear weapons capability.

Meanwhile the highest income groups and corporate tax cheats merrily go their way instead of paying their fair share.

But there are voices everywhere in the country speaking up for common sense, peace, public programs that our families need, and a country we can be proud of. On Tax Day we will join our voices to theirs and insist on budget priorities and tax policies that match our values.

We need a *Budget for All!*

**Apple Computer** has avoided \$44 billion in taxes on profits it has moved into offshore tax havens. Bank of America does the same. Other companies like Verizon and Citibank don't pay any taxes at all! Imagine what all those billions and billions of dollars could do for mass transit, renewable energy, poverty alleviation, education, job creation!
