

People's Call to President Obama

Lead us to a World Free of Nuclear Weapons!

As you stated in Prague in April of 2009, "The existence of thousands of nuclear weapons is the most dangerous legacy of the Cold War." In this year, the 70th anniversary of the atomic attack on the cities of Hiroshima and Nagasaki, we call upon you to:

1. Take our missiles off hair-trigger alert.
2. Commit that the United States will never be the first to use nuclear weapons.
3. Implement the Nuclear Non-Proliferation Treaty, to begin negotiations among all nuclear weapons states for the elimination of the world's nuclear arsenals.
4. Stop the \$1 trillion program of modernizing nuclear weapons and shift the funds to housing, child health, public transit, infrastructure renewal, education, and green economic development.
