

THE WORLD NEEDS PEACE IN UKRAINE

Peace Talks Now - Not Weapons Shipments

The U.S. must give strong support for a ceasefire, withdrawal of Russian troops, independence and neutrality for Ukraine, and security guarantees for both Ukraine and Russia.

Continuing war means more death in Ukraine, increasing starvation in much of the world, and the continuing danger of nuclear war. It also means increasing hardship in our country from rising prices and diversion of tens of billions more of our tax dollars to weapons shipments.

We say, “Peace Talks Now”
